State Attorney's Office Launches Redesigned Website

The State Attorney's Office has unveiled a redesigned website to provide even better service for the community. The URL remains the same: www.SA15.org.

Returning visitors are advised to refresh their browsers. The fully-accessible website features a modern appearance with easy-to-navigate pages to explore. A new mobile version also is available.

"I hope the residents of Palm Beach County will find the new website a helpful resource for information and news about the office, our task forces, employment opportunities, and public records," said State Attorney Dave Aronberg.
